STRATEGIC PLANNING AND ANALYSIS FOR COMMERCIAL BANKING: AN ANALYSIS BASED A COMMERCIAL BANK OPERATING IN SRILANKA

Navaretnarajah Sanjeepan
Department of Management, Faculty of Commerce and Management, Eastern University, Srilanka

Abstract
This article has been consisted on the basis of an ample interpretation of banking sector strategic planning that, along with the instruments and techniques from which it stems, constitutes the essential condition to operate in competitive markets. The concept of planning is examined in its stages, its importance and the benefits for the banking sector in implementing scheduling. The strategic plan model proposed here for the banking sector is examined in detail through the steps towards implementing a plan that leading to the business improvement.

1. INTRODUCTION
In today’s fast moving competitive business environment, banking organizations that fail to carefully and strategically plan for the future may not have much of one. The same holds true for acquiring top talent and effectively on boarding them into the organization. Discussions about Strategic Planning On boarding are finding their way onto more Board agendas as Directors seek to better position their organization for the future and work to reduce costs associated with poor retention. Unfortunately, many find themselves unprepared for such discussions. Banking organizations without disciplined approaches to Strategic Planning On boarding is taking unnecessary and easily preventable risks. Ultimately it will cost more, in terms of money and reputation, not to take a proactive approach. Both areas should be Board priorities in an ever-changing and competitive business environment.

2. METHODOLOGY
For this analysis, I have chosen one of the Commercial Bank operating in Srilanka for this subjective basis analysis, and named as “ABC Bank” for that particular commercial bank. This study mainly focuses on understanding about the strategic analysis and strategic planning processes in an organization (Only for study purposes).

2.1. Understanding the external environment of the bank
External Environment refers what the firm ‘MIGHT CHOOSE TO DO’. Generally, a firm external environment is divided into three areas.
a. General Environment  
b. Industry Environment  
c. Competitor Environment

### 2.1.1. General Environment
General environment is composed the dimension of the broader society that influences an firm and the industry.

### 2.2. PESTLE Analysis for the macro environment
The PEST analysis has been undertaken for understand of the external environment in the context of banking sector (‘ABC Commercial Bank’) which the industry operates in. Generally, external factors are out of the industry’s control and the industry need to be aware of them to adapt itself for exploit opportunities and to avoid the threats in the environment.

P – Government is responsible for protecting the political stability, public interest, consumer protection and regulations of business activities.
E – Competition for resources, competitor activities, savings, unemployment
S – Work life balance, lifestyle, trends in consumer behaviors and leisure
T- Technology develops new products, improved communication and internet
L – Government rules and regulations, Laws, Tax system, Traffics
E – Environmental Safeguard, Green Products (Green Banking)

Social and economic effects of Sri Lanka’s 30 years war disperse, Business confidence has largely recovered. Reconstruction and an island-wide return to business as usual are intensifying economic activity and driving credit demand.

Economic liberalization, in particular the removal of exchange controls, provides exciting opportunities for banks and financial institutions.

The achievements under review have left Commercial Banks almost ideally placed to profit from these opportunities, provided ‘ABC Bank’ make the right decisions and carry them through effectively.

Overall, ‘ABC Commercial Bank’ is benefited from the macro economic conditions that prevailed throughout last year. The last year did not pass without challenges that predominantly stemmed from un-conducive external conditions and also affected by adverse global trends, overall reduction in global growth and capital outflows.

3. SUMMARY

3.1. According to the above analysis

We can say that the recent situation of the external environment is very favorable to the ‘ABC Bank’ as well as in the banking industry well in the island and all these favorable factors (Economic
stability, stabilized political situation, Technological advancements and the expansion of customer bases) reflects that competitors too will be attracted to do commercial operations.

Overall, currently banking industry is faced with opportunities to exploit resources; challenges from the competitors that may be unavoidable.

An industry’s profit potential is a function of the five forces of competition

- Threats of new entrants – New entrants in the banking industry is Impossible to enter the industry and to offering the trustful and the full range of services. Because they need hooch amount of investment and high level of rules and regulations imposed by the government. Therefore, it is possible to earn higher level of revenue in the industry.
  - Capital requirement - must spend a lot of money in order to compete in the market.
  - High sunk costs limit competition - Banks have to commit money up front with no guarantee of returns in the end.
  - Geographic factors limit competition - If existing competitors have the best geographical locations new competitors will have a competitive disadvantage.
  - Industry requires economy of scale

- Bargaining power of supplier - Customer Deposits, Mortgage and Loans, Loan from other institutions.

- Bargaining power of buyer – Customers are expecting more profits for their investments and also they are expecting high quality of service from the bank.

- Availability of product substitutes - There is no high levels threaten from substitute for banking industries in Srilanka.
Newest aspirants in Banking sector like HSBC, Seylan, Sampath, other State and private Banks. So, an analyst should put more weight into it. This can lead to a decrease in profits.

- Competitors Rivalry - Competition is very high in the banking industry. There are Nearly 30+ Local and Foreign banks available all around the island.

‘ABC Bank’ is unique. It is won customers heart and trust by standing nearly with local customers

Further, above mentioned in the page no 13,20 of Strategic Group Mapping, Comparative Market position also will be helpful tools for the better comparative understanding about the ‘ABC Bank’ in the context of Srilankan Banking Industry.

RAM rating is confirmed ABC Bank’s rating at AA+ with the stable outlook. The rating is based on the strong market position in the banking industry in Srilanka. This also reflect the ‘ABC Bank’s strong financial performance, strong franchise, liquidity and better capitalization level.

3.18. Future strategic options for the commercial bank of Srilanka
According to the above extensive strategic analysis and the understandings of the ‘ABC Bank, the Bank has excellent position in the banking industry in Srilanka. As I mentioned earlier, the advance technology is the core strength of the ‘ABC Bank’.

But, we can see from the bank records the Operational cost of the bank has been increasing the recent years. Total expenses for the 2015 were up 10.04% to Rs 17.306 billion.

Increase in the Operational cost is the major weakness of the bank in the current situation.

By using the advance technology (technological leadership) it is possible to do innovative banking services in the market to reduce/control the cost of ‘ABC Bank’ towards increasing the profit of the ‘ABC Bank’.

Therefore, I recognize ‘COST EFFICIENCY THROUGH INNOVATION’ as a future strategic option for ‘ABC Bank’ in 2017 – 2020 and decreasing the operational cost by 25% towards increasing the ‘ABC Bank’ market share.

- Blue Ocean Strategy is widely adopted as a strategic planning tool across the business units and management levels in the ‘ABC Bank’.
- Blue Ocean Strategy has become part of the Bank’s culture.
- There is separate team for Blue Ocean Strategy that has been involved in the ‘ABC Bank’.
- Senior consultants conduct Blue Ocean Strategy seminars as a primary strategic planning methodology used to create sustainable growth in client centric environments.

3.20. Ansoffs Growth Vendor Matrix
Ansoff growth matrix is a planning tool that helps to a business to determine its products and growth strategies.

- Automate existing business functions.
- Achieve greater process efficiency through above activities.

Overall, the above mentioned innovative processes should be done in the period of 2017-2020 towards achieving the cost efficiency.
3.30. Dissemination process to gain commitment from Stakeholders

<table>
<thead>
<tr>
<th>Major Stakeholders</th>
<th>Engagement Activities</th>
<th>Areas of concern</th>
</tr>
</thead>
<tbody>
<tr>
<td>Shareholder, Investors</td>
<td>Annual general meetings, Annual reports, Press conferences, Corporate website(<a href="http://www.combank.lk">www.combank.lk</a>)</td>
<td>Financial performance, Sustainable growth, Risk management, Shareholder communication policy</td>
</tr>
<tr>
<td>Customers</td>
<td>Workshops for customer, Customer satisfaction survey, Relationship management, Media advertisement</td>
<td>Service quality, Customer service, Customer privacy and security, Financial inclusion, Affordability of service</td>
</tr>
<tr>
<td>Employees</td>
<td>Review meetings, Special events, Managers conference, Workshops, Training and Development</td>
<td>Work life balance, Recruitment, Retention, Investment in HR, Rewards and Performance management, Career Progression</td>
</tr>
<tr>
<td>Society and Environment</td>
<td>Public events, Exhibitions, Information centers, Delivery channels, Press releases</td>
<td>Ethical business conduct, Community investment, Environmental performance</td>
</tr>
<tr>
<td>Suppliers and Business partners</td>
<td>General supplier meetings, On site meetings, Supplier relationship management</td>
<td>Future opportunities, Responsible sourcing, Contractual Performance</td>
</tr>
<tr>
<td>Government</td>
<td>Annual reports, Press release, Periodic returns, Consultations, Directives and Circulars</td>
<td>Financial sector consolidation, Compliances, rules and regulations, Local and overseas business expansion</td>
</tr>
</tbody>
</table>

Through this way, the ‘ABC Bank’ will be able to gain commitment from their stakeholders.

3.31. Monitoring and evaluation system

3.31.1. Monitoring

<table>
<thead>
<tr>
<th>Basis</th>
<th>Aspects</th>
</tr>
</thead>
<tbody>
<tr>
<td>Strategy</td>
<td>Pursuit of Cost Efficiency through Innovation</td>
</tr>
<tr>
<td>Structure</td>
<td>Functional department, Line and Staff Distinction, Job specialization</td>
</tr>
<tr>
<td>Control</td>
<td>Hierarchical monitor and control Standard, formalized operating procedures, Short term performance target</td>
</tr>
<tr>
<td>Incentives</td>
<td>Financial incentives for individual performance, other financial, non-financial incentives, Promotion opportunities</td>
</tr>
</tbody>
</table>

- The Monitoring and Evaluation system also includes the Efficiency, Effectiveness, Relevance, Impact and sustainability of the Strategy

3.31.2. Evaluation

<table>
<thead>
<tr>
<th>Focus of Evaluation</th>
<th>Evaluation Question</th>
</tr>
</thead>
<tbody>
<tr>
<td>Efficiency</td>
<td>Did method used in this cost efficiency through innovation lead to similar numbers of participants as previous or other strategies?</td>
</tr>
<tr>
<td>Relevance</td>
<td>Does the topic and contents meet the information needs of the target group?</td>
</tr>
<tr>
<td>Effectiveness</td>
<td>To what extent did the cost efficiency via innovation lead to increased community support?</td>
</tr>
<tr>
<td>Outcome</td>
<td>To what extent has the strategy led to more sustainable behavior?</td>
</tr>
</tbody>
</table>
Were there any other unintended positive or negative outcomes from this strategy?

Sustainability
To what extent has the project led to the long-term behavior change?

Inputs
Financial, Human, Technical Expertise Equipment and material resources used for innovation idea/product/services in the industry.

Activities
Actions taken. Training and Development, workshops conducted for employees, waste Management

Outputs
Products and services that result from the innovation, Number of people trained and Number of workshops conducted for innovation, Increased positive operational cost ratio.

Outcomes
Achieve short-term and medium-term effects or changes of the strategy
Increased skills implementation, employment opportunities

Impacts
The long-term consequences of the cost leadership may be positive and negative effects.
Ex: Competitive Advantage

4. CONCLUSION AND RECOMMENDATIONS

According to my strategic analysis, the ‘ABC Bank’ is High profitable and stable in the banking market. They have average threat from its competitors and also they have excellent brand image and trust that is giving more benefits to them in the industry.

Overall, it is also in the excellent market position in the banking industry in the island. The main negative think of the bank is, higher operational cost compare with the recent years and compare with revenue. As I mentioned earlier, it is possible to get the cost advantage through the innovative banking services in coming years (Cost Efficiency through Innovation). Therefore, ‘ABC Bank’ can achieve more with above mentioned innovative products and services to easily win the future challenges
